

WATERSIDE MEDICAL PRACTICE VIRTUAL PATIENT PARTICIPATION GROUP (VPG)

What is a VPG?

The purpose of the Virtual Patient Group is to establish a system of communication with registered patients in the Practice so that their views and concerns are fed back. We also aim for our patients and VPG members to have a better understanding and knowledge of the Practice, its staff, and its viewpoint.

Why join our VPG

The group will aim to represent the diversity of our practice population and bring a sense of partnership between practice and patients. Allows all to provide constructive feedback on patient and community needs, concerns, and interests.

The structure is comprised of virtual communication via an online forum to allow a wider demographic to be involved.

We hope the group can provide constructive feedback on patient and community, needs, concerns and interests. Foster improved communication between the practice and its patients.

Online forum to build relationship between practice & patients.

All views are valid and will be listened to.

Constructive conversations on topics of interest within primary care

Your views and suggestions will help to inform future service improvement for all
